

Internship: Creative Digital Intern at AI Video Startup

Location: Remote / Hybrid

Start Date: Flexible

Language: Open for both Dutch and English

Expected weekly hours: 16-36 (Your choice)

Duration: 3-6 months

Compensation: Internship allowance (500 For full time) + all software subscriptions covered

About Us

We're a young and ambitious **AI Video Startup** working with the newest tools in **AI video, automation, and digital content creation**.

We built a digital video product that we are launching in the coming weeks. The product is a visual animated timeline of your uploaded photos, and the initial response has blown us away. That's why we are looking for you! We would like to increase our exposure via digital channels like Tiktok and Instagram, via short form videos.

We do have a strategy at the moment but we always value creative ideas to speed up the exposure process.

About the Internship

This is a **very hands-on, high-learning** internship.

You'll work on real projects from day one and learn how to:

- Use AI tools and automated workflows to produce creative content at scale
- Build a digital brand from scratch

- Develop exposure strategies and content calendars
- Run **paid ad campaigns** and **organic growth experiments**
- Contribute to storytelling, editing, and creative direction

We'll cover *all the paid subscriptions and tools you need* — you just bring your *energy, creativity, and willingness to learn. (need to have a laptop that can run editing software)*

What You'll Learn

- Working with the latest **AI video tools** (e.g., Veo3, WAN2.2, OpenArt.)
 - How to build automated creative workflows (n8n, very valuable to learn).
 - Branding and storytelling for digital audiences
 - Paid and organic marketing strategies
 - How to create and optimize videos for *Instagram, TikTok, Youtube and Facebook*
-

You Are

- A **creative thinker** with a passion for digital media
 - Experienced in **video editing** (Premiere Pro, CapCut, Final Cut, or similar)
 - Curious about **AI tools and automation**
 - Up-to-date with **what works on social platforms**
 - Positive, proactive, and not afraid to experiment
-

What We Offer

- A unique chance to **be part of an early-stage startup** in the fast-growing AI Video space
- Access to **paid tools, subscriptions, and AI platforms**
- A creative environment with lots of freedom and responsibility
- Personal mentorship and growth opportunities

- A portfolio-building experience that will stand out anywhere
-

How to Apply

Send us a short motivation + a few examples of your creative work (can be TikToks, Reels, or any digital project you're proud of).
