USER EXPERIENCE DESIGN INTERNSHIP (ERASMUS +)

We are an online language learning platform, based in Valencia, Spain. We need a creative and user-focused UX Design Intern to contribute to our online language learning platform.

Tasks:

- Assisting in usability studies
- Conducting user interviews
- Creating graphic design elements
- Supporting landing page development

Requirements:

- Proficiency in either English or Spanish is essential.
- As a language platform, we truly value multilingualism! Proficiency in an additional language is considered a significant plus.
- Previous experience or a strong portfolio demonstrating your understanding of user experience design and web design principles.
- Proficiency in using Figma for creating wireframes, prototypes, and design mockups.

Your values:

- You are open-minded and interested in other cultures.
- You are a team player and responsible worker.
- You value international cooperation.
- You are creative and can work independently.
- You take responsibility and action.
- You take care of quality and details.

What you will learn:

- Practical application of artificial intelligence tools in the design process.
- Converting business goals into effective design solutions.
- Hands-on experience with user research and usability testing.

How to apply? => Send your resume, portfolio and any other proof you fit the company culture and task description to jobs@colanguage.com.
